Dynamic Patterns from the Duality Collection Present an Artistic View of the Craft of Carpet-making

May 27, 2019 — On view at NeoCon 2019, Mannington Commercial announces the introduction of the Duality Collection, three styles of modular carpet that reinterpret the craft of the carpet-making process as an artform.

The collection was inspired by the artist Lenore Tawney's study of Jacquard looms. Tawney was a groundbreaking 20th-century artist whose woven fiber sculptures inextricably link craft with high art. The Mannington Commercial Design Studio followed this perspective and looked to the company's own carpet-making process, where they discovered how the yarn, backing and carpet construction process not only serve as elements of craft but have an artistic, sculptural presence as well.

The Duality Collection offers three styles of 12" x 48" modular carpet that explore both the artistry and craft of carpet-making.

Cascade is a large-scale, dynamic pattern of densely overlapping arcs and contours, inspired by suspended tubes of yarn as they make their way from the ceiling to the carpet-tufting machine. The style is available in five bold colorways with accents that include rich copper, youthful aqua and cobalt blue.

Tie-in is a medium-scale pattern that captures the dance of yarn going in and out of the backing during construction. The style is available in five neutral colorways, both cool and warm.

Catchlight is a small-scale, richly textured pattern that emulates the flickering, reflective quality of carpet backing. An excellent coordinate for both Cascade and Tie-in, Catchlight is offered in the same five neutral colorways as Tie-in, as well as five unique colorways that combine the neutrals with pops of color from Cascade.

The three styles gain additional dimension through a special treatment of high-luster yarn unique to Mannington Commercial. The mix of luster levels creates

moments of subtle sheen that bring the patterns to life and enhance the textural richness of the designs.

With a 3.5 TARR for exceptional durability, the Duality Collection is made with premium Antron Legacy type 6,6 nylon, which allows the carpet to last up to 75% longer, and Mannington Commercial's Infinity 2 Modular backing for superior performance. Antron Legacy is a third-party certified Environmentally Preferable Product. Infinity 2 Modular backing contains recycled content and is NSF/ASI 140 Certified Gold. The Duality Collection is CRI Green Label Plus Certified to support indoor air quality and features an EPD and HPD. The collection carries a limited lifetime wear and backing warranty, as well as a limited 15-year XGUARD Stain Resistant Warranty and a limited 15-year ColorSafe Bleach Resistant Warranty.

The Duality Collection will be on view at NeoCon 2019 in the Mannington Commercial Showroom, #1039.

About Mannington Commercial

Mannington Commercial crafts flooring with purpose. The company offers a full range of products designed to inspire creativity and deliver advanced performance in all types of commercial spaces. Across modular carpet, broadloom, LVT, resilient sheet and rubber, customers receive coordinated solutions to meet their specific goals. The fourth-generation, family-owned company is guided by this dedication to its customers and to making a positive impact on the environment and local communities. manningtoncommercial.com
