Mannington Commercial Introduces Amtico® Active Lines Collection

CALHOUN, Ga., Oct. 11, 2021 — Mannington Commercial introduces the Amtico Active Lines Collection, an easy-to-customize LVT flooring solution that helps bring a sense of flow to busy spaces.

Lines are a fundamental element of art, created by connecting two points, and they are the starting place for most artistic creation. There are many types of lines: thick, thin, horizontal, vertical, zigzag, diagonal, curved and spiral. The Amtico Active Lines Collection is an exploration of the line and its expressive qualities and was designed to create variety in pattern, scale and color play.

“Commercial designers can create inspiring, purposeful designs with the flexible interplay of grids and linear patterns that are part of the Amtico Active Lines Collection,” said Roby Isaac, Mannington Commercial’s Vice President of Commercial Design. “The neutral tones and customizable digitally printed accent colors make it easy to meet the design needs of any room in any space.”

The Amtico Active Lines Collection makes it simple to customize flooring, delivering design flexibility with 112 possible running line combinations of styles, base colors and accent colors, all of which can be mixed or used independently for a completely tailored floor. Because the accent colors are digitally printed, designers can also create a fully custom accent color that perfectly matches a project’s branding or palette.

The collection is available in two sizes — 18” x 18” or 6” x 36” — and four styles. **Grid** is the smallest scale pattern with a subtle color shift. **Bend** is an organic linear pattern that weaves accent colors along the design in a quiet way. **Crisscross** is the heaviest pattern visually, incorporating color in a bold way. **Shift** is the largest scale of the four patterns which in accent colorways delivers high energy.

Mannington Commercial is committed to helping its customers reduce the negative impact of their projects by improving our operations and offsetting this collection’s embodied carbon by 105 percent. In addition, the Amtico Active Lines Collection features a 40 mil wear layer and Quantum Guard Elite®, Mannington Commercial’s industry-leading performance technology.
