Mannington Commercial Launches Legato® Liquid Linoleum

CALHOUN, GA., Dec. 4, 2020 — Mannington Commercial is introducing Legato Liquid Linoleum, a one-of-a-kind product featuring safe, hygienic, stain resistant and sustainable properties. Unlike traditional linoleum, Legato is poured in place seamlessly, harnessing both the benefits of traditional linoleum and sheet vinyl. Legato can be installed across any commercial segment that requires the benefits of infection control, slip resistance, and sound dampening flooring solutions.

Legato is available in a myriad of 54 colors with five visible cork levels ranging from natural cork to a minimal trace. Legato is installed seamlessly on-site over the existing moisture treated subfloor with minimal preparation and no adhesives are required. After following proper installation requirements and then setting overnight, Legato creates a smooth, natural looking matte finish with no joints or welding needed.

As a poured product, Legato eliminates the need for most transitions. Because of the physical properties of Legato, small scratches can selfheal as the product re-binds to itself over time. This creates a hygienic floor, eliminating opportunities for bacteria growth and dirt collection at transitions, perfect for demanding healthcare environments. Legato also self-levels, creating a safer, easy-to-clean flooring solution for foot and rolling traffic.

“We are proud to introduce Legato Liquid Linoleum to the Mannington portfolio of products. It is an unparalleled product with a litany of benefits for our commercial customers. With its all-natural ingredients, documented sustainable attributes and seamless installation possibilities, Legato is the perfect fit for Mannington’s market offering. Couple that with our knowledge and expertise in the healthcare segment, and Legato is sure to connect with our savvy customers,” said Al Boulogne, vice president, Commercial Resilient Business at Mannington Commercial.

Legato Liquid Linoleum boasts the benefits of Quantum Guard Elite®, Mannington Commercial’s industry-leading performance technology. Legato Liquid Linoleum carries a limited 10-year commercial warranty and limited 10-year Quantum Guard Elite® wear warranty.

One of the most unique and sustainable flooring options on the market, Legato is VOC-free and contains no plasticizers, PVC, formaldehyde, chlorine or heavy metals. Legato is comprised of only natural ingredients, including vegetable oil, cork, wood flour, limestone and natural color pigments. It is FloorScore® certified, carries a product-specific Environmental Product Declaration (EPD), Health Product Declaration (HPD) and is ILFI Declare Red List Free. It may also contribute to LEED credits.

Mannington Commercial is committed to helping its customers reduce the negative impact of their projects by improving our operations and offsetting this collection’s embodied carbon by 105 percent.

Designers, facility managers and other professionals can learn more about Legato at <https://www.manningtoncommercial.com/products/collections/legato-collection/>
