Mannington Commercial Introduces Open Range® Collection
Rubber Plank Flooring Evinces Look of Rustic Wood

CALHOUN, Ga., Feb. 21, 2022 — Mannington Commercial introduces the Open Range Collection, a hard-working rubber plank flooring collection designed to offer a brand-new look to the product category. With the inherent benefits that come from a rubber product, including enhanced performance, comfort, safety and acoustics, Open Range is an ideal flooring solution for commercial interiors ranging from healthcare and education to office and retail.

“Open Range’s visual emulates the type of variation one may see in the character of natural elements. One person may connect to the product’s organic feel of wood grains, while another may appreciate how it resembles the veining found in beautiful stones,” said Mannington Commercial’s Vice President of Commercial Design Roby Isaac. “The tonal differences provide variation from plank to plank, but also create visual depth and texture that make Open Range an unmistakably unique option in flooring.”

Open Range comes in a 6.25” x 42” plank format and is available in 12 warm and neutral tones, which easily coordinates with many of Mannington Commercial’s other carpet and resilient flooring lines.

Mannington Commercial’s thermoset rubber “recipe” creates beautiful rubber flooring that is slip resistant and easy to maintain. Rubber products made through this innovative process retain their color, resist indentation and cracking, and offer superior scratch resistance due to low clay and high pigment content. Mannington Commercial’s thermoset rubber is expertly engineered to provide better acoustics and greater comfort underfoot.

All Mannington Commercial rubber products, including Open Range, never need waxing thanks to a proprietary combination of waxes manufactured into the rubber itself. Rubber flooring products made by Mannington Commercial do not require finishing or stripping, further lowering maintenance costs.

Mannington Commercial is committed to helping its customers reduce the negative impact of their projects by improving our operations and offsetting this collection’s embodied carbon by 105 percent. Open Range contains 4 percent rapidly renewable resource content by total product weight and is FloorScore® Certified. It is also EPD- and HPD-certified and Red List Free. Open Range offers a limited 10-year commercial warranty and a limited 10-year wear warranty.
