

For Immediate Release

Mannington Commercial Introduces the Onward 12 and Upward 20 Collections
Designed for Comfort, New LVT Line Creates Harmony for Senior Living Spaces

CHICAGO – NeoCon Expo – June 12, 2023 — Mannington Commercial (10th Floor, 1039), a leading manufacturer of commercial flooring products crafted with purpose, is introducing two new collections, [Onward 12 and Upward 20](#), at this year's NeoCon. Incorporating biophilic design where nature-inspired elements bring a warm and comforting essence, these collections are ideal for healthcare and senior living spaces.

Onward 12 and Upward 20 are both available in 10 versatile wood visuals and four stone visuals that feature a terrazzo, stonelike pattern. Onward 12 products come in a 2.0mm thickness and feature a 12 mil enhanced urethane wear layer, while Upward 20 products come in a 2.5mm thickness with a 20 mil enhanced urethane wear layer.

"We've taken the best of biophilic design and paired it with high performance to create a value line LVT collection where designers don't have to sacrifice high design and quality for price," said Whitney LeGate, Mannington Commercial Vice President of LVT and Sheet. "We believe designers will find the collection an attractive offering when considering its aesthetics, durability, sustainability and price point."

Made in the U.S., Onward 12 and Upward 20 display third-party verified EPD and HPD product declarations, and 105 percent of the products' embodied carbon is offset from cradle to gate.

Designers, architects, specifiers and other professionals looking for samples or more information can visit Mannington Commercial's [NeoCon 2023 press site](#).

About Mannington Commercial

Mannington Commercial crafts flooring with purpose. The company offers a full range of products designed to inspire creativity and deliver advanced performance in all types of commercial spaces.
